**Group 2** - Danny / Troy / Karen F / Torston / Mark / Steve

### **Karen's Mediumship Pre-Investigation Walk - Old Cellar Only**

Gentleman with a broken arm. and the names or both Ernie (or Arnie) and Albert. There was a feeling of a tightening of the chest and grit in his eyes, as if her was a hard laborer and used to working in dirt.

There is a really strong sense of a family having lived in this area and having spent a time here. Confused as to the street level and if this should be above ground? Sense of some kind of back alley? The family would have had a young girl of about 6 and a boy of 9. Drawn very much to the room down the corridor on the right just before the large one.

Picked up on the name of Bethany who also links to Elizabeth.

Back to the gentleman there was a link to docks and he passed with a heart attack at about the age of 62.

There was a sense of this also being a storage area and of linen and bedding being stored on shelves here. There was also a lot of whispering heard which is sometimes hear by physical people.

Sense of a lady in a long dress. Linked to Elizabeth. She would have been very fashionable and took great pride in her appearance, but also would have mixed with lower classes.

Sense of the name of Graham being linked here, but much more recently.

Picked up on the name Jeanie. There is also a link to the main graveyard up the top end of Brighton as well.

An old gentleman with a grey suit and tie on also wanted Karen to look for where there is a wooden ladder. When trying to find it, Karen asked for more and talked about white ladder and wooden steps. This was confirmed as being at the top of the house and going into the main attic. Upon entering the attic Karen sensed that this man had once lived up here, and it certainly looks like this used to be two rooms. It is also boarded out. Sense that there is something still up there relating to this gentleman.

In the bedroom past this ladder Karen also sensed children running around and messing about with things.

### **Cellar**

**Group 2 - 11.20pm - 11.35pm**

Knock heard in the left hand corner.

Taps heard on chairs

Walking shadows seen in the passageway and also seen from the other end of the corridor, as if in front of the office type alcove.

Cold breezes felt very strongly in the large room at the end of the old corridor - or alleyway.

Sense of a lot of spirit activity.

Male seen by both Karen and Troy standing in the large room

In the top end of the room Karen sensed a male standing beside her and lots of cold breezes. Although it was very warm down here, Karen's arm was cold to touch physically.

Karen heard someone make a loud 'wher' noise in her ear.

Children were sensed by Troy and Karen.

Troy sensed a young boy with the start of his name being 'Mar...'

The names of Eliza or Elizabeth picked up by Troy and Karen.

Troy got the date 1863 and picked up on a bald man with a moustache of about 5ft 8in tall. Was this the man Karen picked up on her walk around linked to the loft?

Troy touched on the back of his head and poked in the neck.

Karen experienced stomach pains.

#### **Group 1 - 12.30pm - 12.46pm**

Anne and Stuart both sensed that the small room off the side of the larger room (in the old part of the cellar) is a cold store room.

Dawn sensed that the main room was a torture room for women her age and was very freaked out when she first came in, there are hooks on the ceiling to hang them up, lots of women were raped down here.

#### **Kitchen & Corridor**

**Group 1 - 11.18pm - 11.38pm      Start Temp 23.1 (by door) / 22.3 (in kitchen)**

**End Temp 22.5 (by door) / 19.7(in kitchen)**

Anne sensed a man of about 22, and the sense of someone who was bundled down the serving hatch chute. The man has been sighted here previously. Sensed that he had been seen in the hallway before. He wears baggy trousers and a checked shirt, with a uniform on when on duty. Wears a hat and a white overall with buttons. Does appear in different clothing when not working. Sense of the name of Tony

Russell was standing near the doorway and couldn't move, felt very cold where he was standing.

Anne sensed the woman downstairs is a housekeeper, floats through the bar to check everything is in order.

Stuart sensed a Maitre 'de by the window.

Anne sensed that they used to be pranksters. At one time there was not a shelf there just a long box, so things could be hidden quick!

Stuart sensed the Maitre De was barking orders. He felt the room was smaller than it should be and that it used to be one big room. He is drawn to the window overlooking the beach, an authority figure who used to come in here and bark orders then look out of the window. He sensed the name of Albert, wearing a penguin suit tails and pinstripe trousers, polished shoes, slick back hair, white shirt. Someone who would have taken care of their appearance from the late 1800's.

Both Dawn and Russell sensed this room used to be special. Dawn felt it used to be the best suite when it was a hotel.

Dawn went up the stairs and felt like she was going to be pushed back down again

**Group 2 - 12.30am - 12.45am      Start Temp 21.8      End Temp 21.5**

Troy and Steve saw a light by the kitchen door and again whilst Karen was in the Kitchen and at the same time as she saw a big flash of light whilst in there.

Footsteps were heard coming from upstairs by all.

Karen sensed someone had suffered from a blow to the head near the top of the stairs by the kitchen.

Karen sensed a fat man in the kitchen area who would walk with his feet sticking outwards at an angle. Karen was drawn to the window overlooking the beach and felt this man come and join her but stand behind a little. This is when she saw this large light brighten up all the window area. He was talking about someone called Richard.

Troy picked up on the name of Joe.

#### **West Wing**

**Group 2 - 11.45am - 12.00am      Start Temp 22.3      End Temp 21.4**

Troy sensed a maid named Maude, and that this room used to be a type of nursery.

Troy sensed a fire and Karen picked up that it was started downstairs and of people trapped upstairs unable to escape. Both Troy and Karen got very hot.

A 'hmmmm' noise was heard by all.

Karen sensed a very sad lady who had lost her children and was very sad. This was linked to the fire (she thinks). She had a very supportive husband and she misses him too/

Karen picked up the date 1923.

Karen sensed the offices opposite were houses in more of a straight line rather than the curved style of road structure that is there today. Troy sensed more of a Tudor type of house. Child who had fallen down stairs and broke their neck sensed.

Karen sensed that this Dr. Brighton was not actually a really doctor in the sense of being a doctor of today, but did something a bit different. He was also very charitable and wanted to help the poor.

Karen had a big dizzy headache and kept feeling sick.

Karen sensed someone who had drowned and the back of her throat and nose was burning trying to get air.

**Group 1 - 12.05am - 12.25am Start Temp 20.2 End Temp 21.3**

Anne and Stuart went into the West Wing upstairs and had to hold the door open because the servants were trying to close it. When there they could sense servants quarters and that they didn't want them in there. When they left the room the door slammed behind them.

All heard a click twice in the corner by the window opposite the doors. (Top Room)

Dawn has been touched 4 times by a cobweb-like sensation on her cheeks and back. (Top Room)

Anne and Stuart both sensed beds for chamber maids. Anne sensed the name of Polly and that she was not very old.

**Main Bar**

**Group 1 - 11.43pm - 12.01am**

**Start Temp 19 (end of bar) / 17 (front of bar) End Temp 21.2 (end of bar) / 19.7 Front)**

Russell heard someone breathing by the pool table.

Both Anne and Dawn heard a tap in the corner by the pool table and then a creak of a floor board by the bar.

All heard a tap in the corner by the pool table.

Both Dawn and Anne heard a scraping noise coming from downstairs, like a barrel being moved (no-body was down there)

Anne sensed that chairs get moved in here. This is due to a tall lady, not elderly, but she knows her place. She comes in to tidy up in the early hours of the morning.

Anne sensed two people behind the pool table and then heard knocks in the corner behind her.

Anne sensed a person with a stick used as a walking aid. Also the sense of three people sitting at tables. The name of Nancy.

Stuart sensed a table where breakfast used to be served where the pool table used to be, and a morning room with tables at the front.

Dawn sensed that it had once been a restaurant and had massive round tables where people used to dine. There were no 'couples' tables'. It was a place of happiness and social gathering, lots of waiters gathering up empty dishes and others taking plates from the food chute - very busy. There was a smaller bar where food and a few alcoholic beverages were served as well.

**Group 2 - 12.05am - 12.20am Start Temp 19 22.6 / End Temp 21**

Footsteps of someone walking about were heard by all.

Karen sensed a scruffy old man with a wooden leg who like a good drink and singing drunken songs / sea shanties. Sensed the name of Bert.

Troy picked up on the names Mary and Lucy

Karen picked up on the names Mary and Ethel

Troy sensed a maid who worked here with the name of Sally. She would have been about 19 or 20.

Sensed that this has not always been a pub, but was dwellings or houses from underneath.

Troy picked up the names Jack and Ernest. Jack was a drinker here as well.

### Ouija Board Experiment

Eliza Dahe from India. The doctor was an alchemist and she worked with the doctor Gerlad Xicoby (not Indian) to assist with the information on the spices which were used to help people. She had no children but lived here in the attic area. She was a good woman who helped people and the poor. She fancied Gerald but he was married. She lived here not at the time of the abortion clinic but after this.

Man called Pirere Francis - from France.

Child called Wendy Kline. Lived here in the West Wing and drowned in the sea at the age of 5.

Man called Jack Davies who died at the age of 64 in 1921. He was born in London in Rotherhithe in 1857. He is friends with Bert who has a wooden leg. He drank in here and was a fisherman. It is Robert who was in the Merchant Navy. They were all friends together. They used to sing shanties together and spent a lot of time together here. He died on the street just outside after falling down the steps when he was drunk. He asked us to 'Find Me', not in terms of his remains but that he had lost his family and wanted to move on.

10 people here are lost. The chair then moved on its own near to the pool table where we were holding this experiment.

Mary King lived in the West Wing. She knew Jack and worked here as a barmaid. The spirit people here like all the staff. Wendy watches Michael from his doorway and also likes playing with the dog. She died in a fire here in 1873. Q here (?) She was trapped upstairs and died at the age of 24. She was born in 1849 in Brighton at 9 Station Road. She finished off by saying 'Good Luck'

'Hello'. Male called Charles, would say any more information about himself but wanted to move on.

Anne. Worked and lived here at a different time to the others. Didn't know who some of the other names were. She died at the age of 46. She lived in what is now the cellar area at the far end and had two children Wendy (who we have already spoken to) and David. (the eldest child) She was not married. Both of her children died young. This building wasn't here when she lived here. She was a prostitute as were the others living around her. She had a rough life, but is happy now.
